Why is LUNA PARK awesome?

1. Luna Park creates an all-in-one experience for the players via their web browser; no additional apps needed
2. Players can actually see and hear their teammates while seeing and hearing the host (like a Zoom breakout room but way better)
3. The host can use any answer submission tool and the players will be able to click right on the screen
4. From the custom background to audience previews it really feels a lot more like hanging out in a bar or restaurant than being in a business meeting

Quick Overview of the Host Dashboard:

Quick Overview of the Host Control Panel:

The screenshot displays the Luna Park Training Host Control Panel. The interface includes a top navigation bar with the 'LP Beta' logo, the event title 'Luna Park Training', and a 'Copy link' button. The main content area is divided into several sections: a 'Hosts' section on the left with a 'LIVE' indicator and a 'Screenshare' button; a central video feed showing a host wearing a headset; a 'Trivia on Luna Park!' quiz overlay with a 'Required' question; and a 'Chat' section on the right showing messages from 'Ben (Luna Park)' and 'Boen (LunaPark)'. At the bottom, there are controls for 'Event Theme', 'YouTube or Twitch Videos', and a 'Teams' section displaying avatars of participants. Annotations with arrows point to various features: 'Click on your face to Start Streaming' points to the host's video feed; 'Click the Play button to Screenshare' points to the 'Screenshare' button; 'Insert your Crowdpurr, Google Forms, or Kahoot link here to embed the answer submission form' points to the 'HTML embed' field; 'Click on the Camera and Mic to Mute or Adjust your Settings' points to the bottom-left controls; 'This is where you see the Player Chat' points to the chat window; and 'Players in your event will show up here AND you can see Teams' points to the 'Teams' section at the bottom.

Chat · 45s · 3

Ben (Luna Park): The best host around!!!

Boen (LunaPark): 🎉

Click on your face to Start Streaming

Click the Play button to Screenshare

Insert your Crowdpurr, Google Forms, or Kahoot link here to embed the answer submission form

Click on the Camera and Mic to Mute or Adjust your Settings

This is where you see the Player Chat

Players in your event will show up here AND you can see Teams

Here are a few important reminders:

1. We are a new product in beta so please keep that in mind!
2. Google Chrome works best! We also support Firefox and Edge.
3. You can't visit Luna Park from a mobile device today. That means no phones or tablets.
4. Luna Park really shines when everyone is on a team so please encourage your players to join teams!
5. This is a new experience and players will be unfamiliar when they first join so be ready to help them navigate their way onto a team.
6. If you or your players run into issues usually refreshing your browser solves it.
